Structure

Unzip the downloaded package and open the /HTML folder to find all the template files. You will need to upload these files to your hosting web server using FTP in order to use it on your website.

Below is the folder structure and needs to be uploaded to your website root directory.

File & Folder Structure

```
davies
├── assets
│   ├── css
│   ├── fonts
│   ├── icon
│   ├── images
│   ├── js
│   └── scss
├── index.html
└── ...
```

HTML Structure

Davies | Personal Personal Portfolio HTML Template

Below is Davies basic structure:

```
<!DOCTYPE html>
<head>
    <meta charset="utf-8">
    <title>Davies | Personal Personal Portfolio HTML Template </title>

    <!-- Fonts -->

    <!-- Icons -->

    <!-- Favicon and Touch Icons -->

</head>

<body>

    <!-- preload -->

    <!-- Header -->

    <!-- Slider -->

    <!-- Section -->
    <section class="tf-section"> </section>

    <!-- Go Top -->
    <div class="progress-wrap"> </progress-wrap>

    <!-- Footer -->
    <footer class="footer"> </footer>

    <!-- Javascript -->
    <script type="text/javascript" src="assets/js/jquery.min.js"></script>
    <script type="text/javascript" src="assets/js/bootstrap.min.js"></script>
    <script type="text/javascript" src="assets/js/swiper-bundle.min.js"></scrip
t>
    <script type="text/javascript" src="assets/js/infinityslide.js"></script>
    <script type="text/javascript" src="assets/js/odometer.min.js"></script>
    <script type="text/javascript" src="assets/js/jquery.nice-select.min.js"></
script>
    <script type="text/javascript" src="assets/js/ScrollSmooth.js"></script>
    <script type="text/javascript" src="assets/js/countto.js"></script>
    <script type="text/javascript" src="assets/js/shortcodes.js"></script>
    <script type="text/javascript" src="assets/js/main.js"></script>

</body>

</html>
```

CSS System

style.css is the main CSS file located in style/ folder of the package. Whole CSS file is well indexed with topic and its related code.

The Davies CSS System contains 2 parts:

- Template style
- Shortcodes style
- Animation - Bootstrap style

Your_template/css/style.css (Template style)

```
/**
 * Blog
 * Layout
 * Header
 * Accordion
 * Animation
 * Box Icon
 * Button
 * Carousel
 * Form
 * Hover
 * Nice Select
 * Popup
 * Section
 * Slider
 * Tabs
 * Testimonial
 * Widget
 * Footer
 */
```

Animation - Bootstrap style

```
/**
 * animate.css
 * odometer.min.css
 * bootstrap.css
 * styles.css
 * styles.css.map
 * swiper-bundle.min.css
 */
```

Javascript Custom

You can modify any settings for (Retina Logos, Animations, Testimonials, Sliders, & Progress bar and more..)

main.js (js/main.js)

```
/**
 * Go Top
 * Infinite Slide
 * Update Clock
 * Cursor Trail
 * Counter
 * Scroll Link
 * Setting Color
 */
```
